Close

Dear GigaScience Editors,

Thank you for accepting our manuscript for publication.

In response to the comments from the Editor and reviewer we have made the following small changes to the manuscript:

- 1) We have cited the Boutiques software, as recommended by the reviewer.
- 2) We have added a link to the archival snapshot of your code in gigaDB.
- 3) We have made minor corrections for typos, grammar, format, and have removed any tracking and red color that was made to highlight changes for the reviewers.

Kind regards,  
Bernard Pope
